Subject: FW: Draft of EPA request for additional analyses by NCI
Attachments: Request for additional analyses of NCI formaldehyde cohort (Jan 23 2015)-jjcom.docx

Hi Glinda,

At tomorrow's formaldehyde meeting with David we will discuss additional analyses of the NCI data. The attached write-up describes a couple of options. I'm sorry that I did not include you on the original transmittal.

We likely need to identify any other analyses we might want from NCI.

Please take a look and we can discuss this tomorrow. Or send comments ahead of time since I'll be calling in from home.

Thanks!

Tom

hi, Tom. sorry for the delay, but i finally got a chance to read this. it looks good. i just have a few editorial comments (see attached). also, when we send this to NCI, it would be good to attach the Ichimaru et al. and Meyers et al. papers, for their convenience. jj

Barbara/Andrew/Jennifer,

I wrote out a more complete description of the additional analyses I had proposed. Please review and let me know if you have comments or suggestions.

I have attached a few of the related papers in case that facilitates reviewing them.

Thanks,
Tom
